University of Victoria Administrative Transcript (AT)

Legend

Grading scale, comparative grading and academic standing

- The grading scale for the evaluation of course achievement at the University of Victoria is a percentage scale that translates to a 9 point grade point average (GPA)/letter grade system.
- The 9 point GPA system is the sole basis for the calculation of grade point averages and academic standing.
- Standardized percentage ranges have been established as the basis for the assignment of letter grades.
- The percentage grades are displayed on the official and administrative transcripts in order to provide fine grained course assessment which will be useful to students particularly in their application to graduate studies and for external scholarships and funding.
- Comparative grading refers to the mean (average) for the class and the number of grades in the class size (calculation). Comparative grading data may display on transcripts for undergraduate and graduate level courses except for those with the abbreviation LAW. The mean (average) includes percentage grades only; the size is the number of percentage grades in the calculation. Mean and size are displayed when the class size is six or more.
- N/A is displayed if comparative grading is not available. This may be due to the class having less than the minimum number of students, the student has a temporary grade, or less than 80% of the grades have been submitted.
- Effective 2008 Summer Session, an explanation of sessional standing will appear every session where course work has been completed.

Cumulative grade point average calculation (Undergraduate and Law only)

- Effective September 1992, the cumulative grade point average will be displayed and is based on courses taken or challenged in session(s) where a final sessional grade point average has been determined. Excluded courses are those with grades of COM, F/X, N/X; courses taken on exchange since 2003 Summer Session; undergraduate supplemental grades (excluding Law).
- If a student takes courses beyond a first undergraduate degree, or transfers to the LL.B/J.D. program, a further cumulative grade point average will be calculated excluding those courses completed prior to the granting of the first degree or entry to the LL.B/J.D. program.

Courses

• Effective 2008 Summer Session, audited courses, non-graded courses, section numbers and drop dates will appear.

Note

The note column identifies details related to courses such as: course challenge, aegrotat, duplicate and mutually exclusive notations and fee-refund dates. Most courses that
are dropped before the 100% fee reduction deadlines are not displayed.
